Adaptive ERP Wins Spring 2023 Top Performer Award from SourceForge

Adaptive ERP is proud to be a winner of the Top Performer award from SourceForge, the world's largest software reviews and comparison website.

May 12th 2023 – Adaptive ERP©, a cloud-based ERP, Project Management and Enterprise Document Management provider, today announced that it has been awarded a Spring 2023 Top Performer Award by SourceForge, the world's largest software and services review and comparison website. This award recognizes exceptional companies and products with a significant amount of recent favorable user reviews that puts them in the top tenth percentile of highly reviewed products on SourceForge.

The SourceForge President Logan Abbott stated: "We're happy to announce this year's outstanding Spring 2023 Top Performers. Adaptive ERP© showed that their users love them, as evidenced by the quality and number of user reviews."

To win the Spring 2023 Top Performer award, each winner had to receive enough high-rated user reviews to place the winning product in the top 10% of favourably reviewed products on SourceForge, which demonstrates the utmost quality that Adaptive ERP© delivers to customers.

Adaptive ERP© CEO, Sara Statman responded with: "At Adaptive ERP©, Adaptive PM© and Adaptive DMS© we're excited to accept the Spring 2023 Top Performer Award. We do our best to provide best-in-class products and we're happy to see our users rewarding us with good reviews. We're honoured to be valued by our clients and to be recognized by SourceForge. Our enterprise-wide Document Management, Portfolio, Program and Project Management products have transformed organisational processes and efficiencies, as has linking any number of ERP components, such as supply chain, inventory/warehousing, invoicing, payments, orders, CRM, CMS and surveys – all with one single source of truth – a unique database and encryption key per client.

About Adaptive ERP

Adaptive ERP© provides a comprehensive portfolio of innovative, cloud-based ERP solutions, with enhanced security and a modern UI/UX. Teams, clients and suppliers are all connected and collaborate seamlessly. Our suite of enterprise products power data-driven decisions and operational efficiencies, with real-time encrypted data. They are simple to use, even without training. Multiple filters and tags ensure quick and easy access. All client data is segregated with a unique database and encryption key per client. Our Key-Based 2-Factor Authentication login is akin to bank grade security.

Adaptive PM© provides comprehensive Project, Program and Portfolio Management with a modern UI/UX, linking teams, clients and suppliers. Create Project Plans, estimate costs, timelines, scope (applying MOSCOW) and resources based on skill and availability. Obtain Project Sponsor approval.

Program and Project level visualisations give a bird eye's view on Scope, Budget and Timelines. Use Gantt Charts, Kanban Boards (with access controls) and detailed task reviews to view slippage, dependencies and manage progress easily. RFIs are grouped by Item not date, saving countless hours. Create operating budgets and monitor labour and material costs. Manage RAIDs with Risk Registers and use Time & Billing for accurate client or contractor billing and reporting.

Adaptive DMS© provides Enterprise Document Management with rapid server-side search to find one of thousands of files in seconds. Share files, folders and Workflows with teams, clients and suppliers. Create unlimited folders and tags. Handle all file types. It includes an Audit Trail, Back-Up, Archiving, as well as permissions and access controls. You decide who has rights to archive or assign files, create or edit groups or depts. It integrates fully with Adaptive ERP© and Adaptive PM©.

About SourceForge

SourceForge.net is the world's largest software comparison directory, serving nearly 30 million users every month and featuring user reviews, product comparisons, software guides, and more. SourceForge's mission is to help businesses find the best software to fit their needs and their budget. There are a variety of software tools available to businesses, and there are tools in almost every category and niche, each serving a slightly different purpose. SourceForge also powers the Slashdot.org/software/ business software and services directory.
